To the Permanent Representatives of the States Parties  
and Signatories to the Convention on the Prohibition  
of the Development, Production and Stockpiling of Bacteriological  
(Biological) and Toxin Weapons and on their Destruction

26 September 2018

**BIOLOGICAL WEAPONS CONVENTION: LETTER FROM THE CHAIRMAN**

Excellency,

I have the honour to convey the attached letter from the Chairman of the 2018 Meeting of States Parties to the Biological Weapons Convention, Mr. Ljupčo Jivan Gjorgjinski, of the Former Yugoslav Republic of Macedonia.

Please accept, Excellency, the assurances of my highest consideration.

Daniel Feakes  
Chief, BWC Implementation Support Unit

**PERMANENT MISSION OF THE REPUBLIC OF MACEDONIA**  
TO THE UN, WTO AND OTHER INTERNATIONAL ORGANISATIONS IN GENEVA

N° 16 - 01 -

Geneva, 26 September 2018

Excellency,

I write to you as Chair of the 2018 Meeting of States Parties to the Biological Weapons Convention, which is scheduled to take place 4-7 December 2018.

This should be the point in time that I send a letter with a provisional agenda for this year's Meeting of States Parties. Unfortunately, such is not the purpose of this letter. I have been informed by the Geneva branch of the Office for Disarmament Affairs "that there are currently not sufficient funds for the Meeting of States Parties to go ahead as planned in December."

Thus, at best, a letter with a provisional agenda is postponed slightly. At worst, we do not have a Meeting of States Parties this year.

As you are aware, I am preparing an Information Paper on Measures to Address Financial Predictability and Sustainability. This paper may help us focus on mid- and long-term possibilities and provide an analysis for informed choices by States Parties.

Yet, one simple fact stands out early: it is unsustainable to persistently have non-payment of assessed contributions hovering around 10%.

We started this Intersessional Programme with good momentum. We had productive expert discussions during all MXs and considered various ways to strengthen the Convention. But, we cannot think of strengthening the Convention if we do not take care of the basics. The BWC is one of the least expensive global disarmament instrument, even as it bans a whole category of weapons that are universally acknowledged as abhorrent.

To: The Permanent Representatives of the States Parties  
and signatories to the Convention on the Prohibition  
of the Development, Production and Stockpiling of Bacteriological  
(Biological) and Toxin Weapons and on their Destruction

Indifference cannot be an option for such an important issue. We must find a permanent solution to the financial challenges facing the Convention so that things are put on sound and predictable basis. If we are not able to do this, then we put at risk the Intersessional Programme and the ISU.

I attach here Annex II of the status of contributions of the BWC as it stood on 31 August 2018. This information is also available on the BWC website. The table shows that some States Parties simply pay later in the year and have traditionally done so. But others are several years behind. I encourage States Parties that have not paid their assessed contributions yet, to do so with the greatest urgency.

There are also States Parties that have overpayments from previous years. Those funds sit unused, for some States Parties for several years. The UN considers them a liability, since they are overpayments from previous years that are usually offset against future contributions. However, if a State Party so wishes, such credits could be used to organise this year's MSP. Any State Party may simply inform UNODA and UNOG with a letter, attaching any reservations it may have. I do understand the moral hazard dilemma such an approach may pose from a national point of view. But, I encourage all States Parties — irrelevant of payment status — to consider the broader, global framework at this moment.

I have also asked the ISU/UNODA/UNOG to inform me whether there are any savings from the assessed costs and the actual costs for the contractual services and meetings this year and hope to have that information shortly. This will give us a better view of available funds for the year.

Last, let me take this opportunity to quickly draw your attention to 2019. The ISU has already sent the invoices for next year. As an exceptional measure, UNODA Geneva decided to close the BWC accounts last month. These invoices have been issued earlier than in previous years in an effort to increase the rate of collection of the contributions, to adhere to the Financial Rules and Regulations of the Organisation and particularly to ensure the operational continuity of the ISU. The purpose is to ensure that sufficient funding is available at the beginning of the year to enable UNODA to enter into financial commitments (staff and meeting costs) for 2019. As already explained, the UN is not in a position to enter into financial commitments without sufficient funding available ahead of time. I would therefore strongly encourage those States Parties able to do so to also pay their 2019 assessed contributions as soon as possible.

These are all short-term measures, a bridge to mid- and long-term options, which will be outlined in the coming Information Paper that I will soon offer for your consideration.

I will work with all stakeholders willing to help to make sure that we have an MSP, to make sure we keep the valuable services of the ISU and to continue with the excellent start of the ISP. The alternative is unravelling of this important regime. Surely, no peace-loving State Party to the BWC wants that.

Please accept, Excellency, the assurances of my highest consideration.

A handwritten signature in black ink, appearing to read 'Lj. Gjorgjinski'.

Ljupčo Jivan Gjorgjinski

Minister Counselor and Chargé d'Affaires  
Permanent Mission of the Republic of Macedonia in Geneva

Chair of the 2018 Meeting of States Parties  
to the Biological and Toxin Weapons Convention
